PROJECTS / OPEN-SOURCE

Weather App | [Link](#)

HTML, CSS, JavaScript, OpenWeather API

A responsive weather application that allows users to search for any city and view real-time temperature, humidity, and weather conditions using an external API. Designed with a clean user interface and optimized for different screen sizes.

Expense Tracker | [Link](#)

HTML, CSS, JavaScript

A simple expense tracking application that enables users to add, delete, and manage daily expenses. The application helps users monitor their spending habits through an intuitive and user-friendly interface.
